

# The OMICRONICLE

WESTERN CUNA MANAGEMENT SCHOOL

YEAR 03 • ISSUE 01 • JULY 12, 2017

## WE CAME. WE SAW. WE CONQUERED.

The Omicron Class is nearing the end of our three-year program, but not the end of our journey together. We've passed through two projects, two exams, and a presentation, and are ready to change the world. After one last exam, that is, which we will conquer by kicking the faculty and GAs out of the Oldenborg lobby for nightly study sessions!

Our last chapter at WCMS begins with an ambitious program to get everyone golfing or bowling this weekend. We look forward to spending these two weeks with each other and our friends in the Pi and Rho classes.

## NOT FAKE NEWS

For the 3rd year, the Tri-Class Games were dominated by the Omicron class.

**WAY TO ROLL, OMIS!**

## YEAR 2 PROJECT

The Omicron class breathed a sigh of relief on Tuesday morning once their Year 2 projects were returned. The Year 2 project is a tremendous accomplishment, and everyone should feel proud of their work. **Our advice to the Pi and Rho classes: "Start early, and start often. No, earlier and more often than that."**

★★★★★★★★★

**POTOC**  
 ★★★★★★★★★

As **POTOC** (President of the Omicron Class), I am honored to join you this year as we continue growing in the WCMS tradition of “head and heart” philosophy. Thank you for your hard work in making our school a legacy for future classes. As third-year students, we’ve welcomed the Rho’s with open arms, and we celebrate the growth of the Pi’s following us. We all have something to contribute as we participate in this journey together. We can all be a part of something much bigger than ourselves! “Step out of your comfort zone” and continue “doing great things.”

**Remember to leave a legacy of leadership, and keep looking for ways that your class can serve.**

To the Pi and Rho classes, look for opportunities that you can use to differentiate yourselves from the classes before. As the Indian philosopher Swami Sivananda said, “Put your heart, mind, and soul into even your smallest acts. This is the secret of success.”

— Jeff Morris, Omicron Class President

# A GOLDEN EVENING

The Omicron class not only thinks outside the box, but also outside the ballroom, staging an “El Dorado Casino Night” in the Harwood Courtyard, full of fun, hats, and excitement. Rumor holds that even The Three Amigos and a Unicorn could not stay away from an Omicron party.

# ALOHA WCMS!

The Omicron Class kicked off our final fortnight at WCMS with another festive evening at the **Hawaii Welcome Event**. Mahalo to Hawaii Hui for excellent food and amazing entertainment. They always light the fire that is WCMS.

## EVENT SCHEDULE

Thursday, July 13th	@7:00pm	Pi Event: “Detective”
Friday, July 14th	@1:00pm	Golf tournament tee time (Shuttles depart at 1pm)
